What would be the best phone under 25k india
Worked for 11s
For a budget of ₹25,000 in India, I'd prioritise a phone that balances camera quality, gaming performance, battery life and long-term usability, with 256GB storage as a minimum.
My first shortlist would be the POCO X7 Pro 5G, OnePlus Nord CE 5 5G and Motorola Edge 60 Fusion. Each has a different strength, so the best choice depends on which compromises you're willing to make. Recent Indian phone comparisons also distinguish these categories rather than treating one phone as the winner at everything.
91mobiles +2
My top 3 picks
Best for performance
POCO X7 Pro 5G
₹23,999 · 8GB/256GB
Best if gaming and speed matter most
Dimensity 8400 Ultra processor
6,550mAh battery, 90W charging
1.5K, 120Hz AMOLED display
Strong gaming performance; camera versatility is less impressive than its raw power.
